TRADE OBSTACLES ALERT MAURITIUS

The **Trade Obstacles Alert Mauritius** (set up in 2015) is an online tool designed and developed by the International Trade Centre to facilitate the identification and elimination of obstacles faced by the business community.

The **Mauritius Chamber of Commerce and Industry** (MCCI) acts as the National Focal Point.

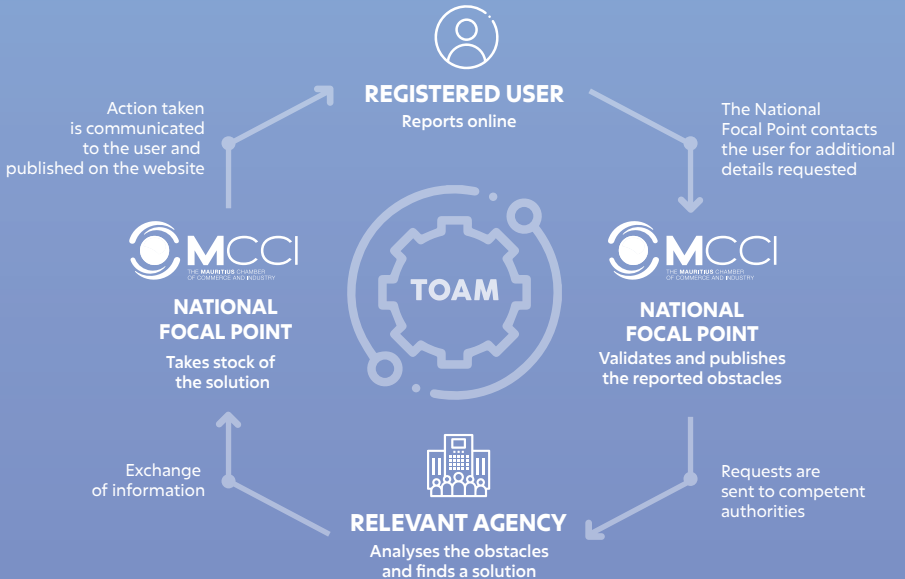

TOAM allows companies to report challenges encountered and enables the competent authorities to interact with businesses to resolve their issues effectively.

TOAM is free and easy to use

- 1 Install the mobile application or visit the website
- 2 Create your account
- 3 Report obstacles encountered
- 4 Receive updates

How does the mechanism work?

Introducing the **TOAM** MOBILE APP

Report trade obstacles
ANYTIME, ANYWHERE

**Facilitate trade
obstacles reporting**
for business people.

The reporting can be done
even if the **user is offline**.

The system allows an
automatic synchronization
once the user is online.

Why should you use TOAM?

One single channel
to direct your
trade-related problems

Confidentiality whilst
reporting obstacles

Transparency

Efficiency as trade
agencies & businesses
have a formal platform
for interaction

**Better
policy-making**

**Access to updated
database of obstacles**

**Alert mechanism for
timely updates**

**Register from your
desktop or mobile phone**
